Asking Price:	<del>\$17,998,000.00</del> \$16,998,000.00

# BURRARD CORRIDOR AREA G: DEVELOPMENT GUIDELINES

- Building heights should not exceed view corridor limits (except in accordance with the General Policy for Higher Buildings However, where not restricted by view corridors, building heights can be considered up to a maximum of:

- Area 'G': 91.4 metres (300 feet)

Building heights are subject to other Council-approved policies, guidelines, by-laws and urban design considerations, and a minimum site frontage of 39.6 metres (130 feet). Development proposals with frontages of less than 39.6 metres (130 feet) can be considered at the discretion of the Director of Planning, where these proposals include contributions to the Public Benefits Strategy, including secured market rental or social housing.

- Maximum densities will recognize urban design considerations on a site by site basis.

- To maximize views and sunlight on sidewalks, residential floor plates above the podium level(s) should not exceed:

- Area 'G': 511 square metres (5,500 square feet)

- In Area 'G', rezoning applications to increase density can be considered. Where an application includes a residential component, density increases will be considered to

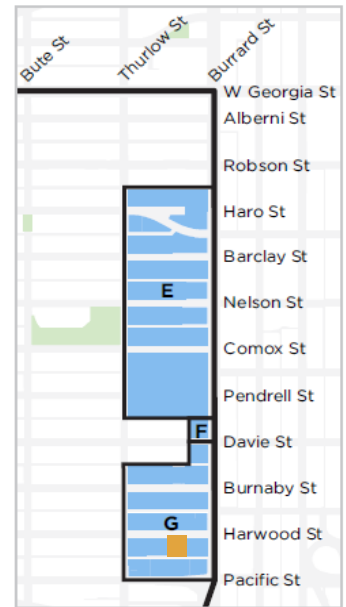

- In Area 'G', rezoning applications to increase density can be considered. Where an application includes a residential component, density increases will be considered to support the Public Benefits Strategy (see 17.0 Public Benefits Strategy) for sites within the Downtown ODP, or to provide social housing for sites within the current RM-5A and RM-5B zones (see 8.0 Housing).

- New development in Area 'G' should be in the form of a tower with landscaping at grade (i.e., "tower in the park"), except for sites fronting onto Burrard Street, where a podium with commercial uses is appropriate.

- In Area "G", rezoning applications to increase density for 100% secured market rental with a minimum of 20% of the floor area as below-market rental can be considered. Refer to the West End Rezoning Policy (2013).

- For 100% secured market rental buildings with a minimum of 20% of the floor area as below-market rental in Area "G", floor plate maximums will be subject to Council-approved policies, guidelines, by-laws, and urban design considerations.

Burrard Corridor:  
Areas 'E', 'F', and 'G'

## POTENTIAL DEVELOPMENT PARAMETERS

Land Use:	West End - Burrard Corridor Area G
Building Height:	Maximum Height of 300 FT
Residential Floor Plates:	5,500 SF
Minimum Site Frontage:	131 FT
Land Area:	12,969 SF
Projected Density:	11.19 FSR*
Build-able Density:	145,123.11*

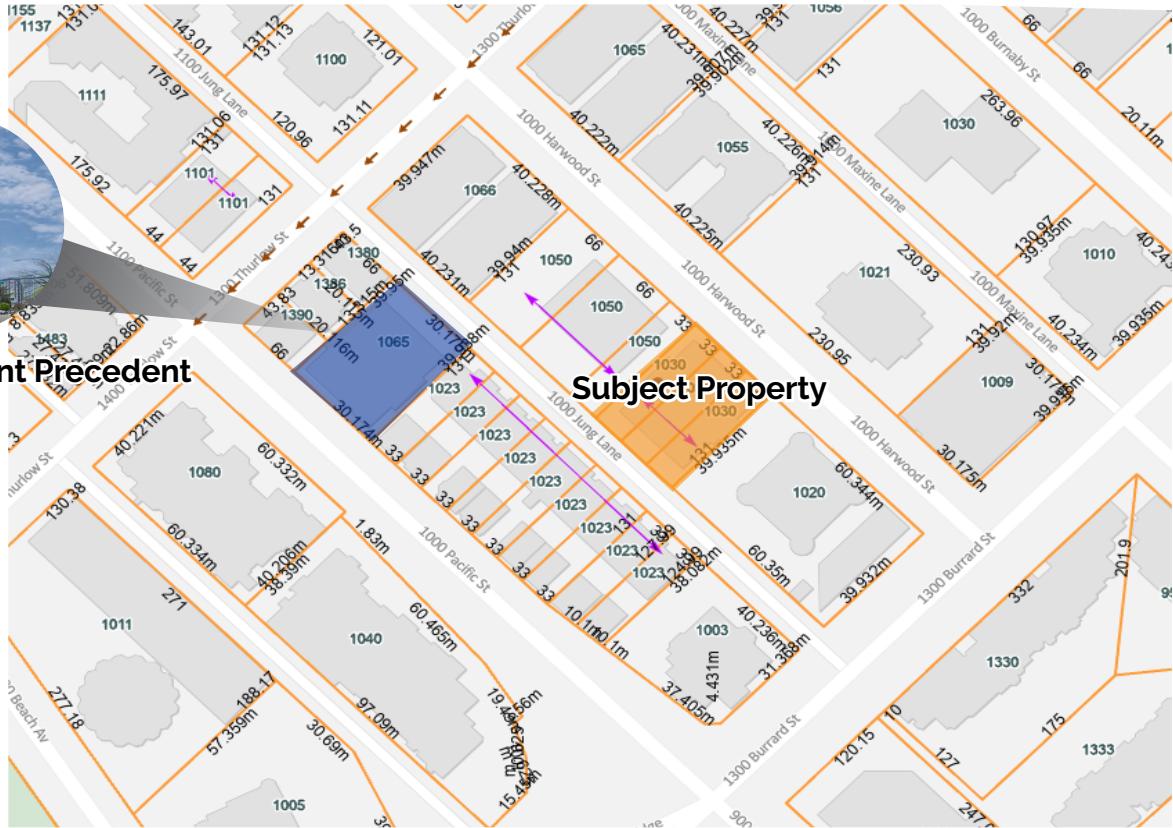

\*Projected density is based on historical data of developments within the region, and not all sites or properties will be able to achieve the projected density due to site constraints articulated in the bylaws. It is up to the developers to conduct due diligence to determine the best application of the site.

# REDEVELOPMENT PRECEDENT

## Redevelopment Precedent

1065 Pacific Street  
Vancouver, BC

## Rezoning Application - Approved

### 1065 Pacific Street, Vancouver

The above rezoning application was approved on March 12, 2024. This will serve as a precedent to achieve a higher density on the Property as the applicant applied for a relaxation on the minimum frontage of 130 FT. Given the similar lot size and mid-block location, this approval serves as a precedent for the Property to also achieve a minimum frontage relaxation. As such, we will use a projected density of 11.19 FSR.

### Applicant: Wall Financial

Land-use:	Burrard Corridor Area G
Type:	Concrete Multifamily
Built-Form:	32-storeys with 144 market rental and 36 below market rental
Frontage:	99 FT along Pacific Street
Land Size (approx. SF):	12,972 SF
Density:	11.19 FSR
